

Cub 1x12 Cabinet

This Portable Cub Cab is Detailed and Powerful

The Bad Cat Cub 1 x 12" Cabinet is a mid-size, open back cabinet built for perfect pairing with the Cub Head or as an addition to the Cub Combo. This 1 x 12" enclosure gives a surprisingly big, full sound for its size. The Cub Cab comes loaded with a proprietary Celestion Bad Cat V30 speaker that sings with incredible detail and definition. Plug into the Cub 1 x 12" Cabinet for an experience in power and detail.

Best Cabinet Materials and Quality

Bad Cat Cub Cabinet gives you every bit of the build quality, great looks, and high performance you expect out of a Bad Cat premium cabinet. Baltic Birch wood cabinet, and speaker baffle, elegant taurus tolex, white piping, durable black weave grill cloth, heavy gauge speaker wire, and hand-soldered jacks and speakers. You get full tones, great bass response, and plenty of volume to pair perfectly with your Bad Cat amplifier.

Premium Speaker for Detailed Tones

The single 12" Celestion Bad Cat speaker inside the Cub Cabinet is not your run of the mill loudspeaker. This undoped 60-watt, 12" Celestion speaker is perfectly voiced for all kinds of styles. From glassy clean tones to massive crunch, plug your guitar amp or amp head into the Cub Cabinet and you'll experience your tone in a whole new way.
